HI!

I'm See Siang - and I'm a student currently studying at NTU (Nanyang Technological University). In addition to my studies, I aim to become a multidisciplinary designer working in the areas of graphic design, photography, and illustration.

I enjoy the act of photography itself, no matter it be scenic or portrait-focused, and is currently even working under a childcare as their media adhoc.

I would love to make this a living so if you like what you see, please get in touch!
